# EXACT AXLE MOUNT

## PURPOSE-DESIGNED CONSISTENCY

BAL has set the new standard in frame technology with the EXACT AXLE MOUNT™, an automotive style axle hanger that provides an unmatched level of strength, rigidity, and precision. Fully integrated into the NXG hucked frame, the EXACT AXLE MOUNT™ ensures the same axle positioning and strength every single time. All components of the EXACT AXLE MOUNT™ mechanism are individually e-coated before assembly with a corrosion-resistant finish for extended life. For additional information regarding the EXACT AXLE MOUNT™ or other BAL products, please visit [www.balrvproducts.com](http://www.balrvproducts.com).

- » Weld-free mount design hucks to frame rails for consistent, secure connection
- » Purpose-designed using computer simulation for extreme RV applications
- » Consistent axle positioning & strength
- » Stamped high-strength steel alloy for rigidity and consistency
- » CNC positioning ensures accuracy
- » Fully E-coated before assembly

Fully Integrated into our NXG Hucked Frame
