

Care and Maintenance

841029
Threaded Rod

841030
Trunnion (screw nut)

- Lubrication is required for direct drive products and is recommended at every use. A dirt resistance dry lubricant that contains Teflon, such as Dupont Chain Saver. The oil-free wax film reduces wear on the metal to metal components.
- Check tubular steel for any insects that may have taken up residency inside the leveler.

WARNING: Do not use a cordless drill or cordless impact to operate the product unless the drill has an adjustable chuck. Manual ratcheting allows you to feel the resistance during operation.
